

## Alaska Veterinary Clinic

300 EAST FIREWEED LANE  
ANCHORAGE, ALASKA 99503  
(907) 277-3224

Northern Lights Veterinary and Laser Center has closed its doors and we have obtained Dr. Schmidt's records. We had for many years maintained a cooperative relationship with Northern Lights Veterinary Clinic and hope that you'll choose us as your new veterinary care provider.

Alaska Veterinary Clinic is located on the corner of Fireweed and Cordova in midtown. We are Anchorage's longest established veterinary clinic. Open since 1958, we've always been Alaskan owned. Frequently remodeled and expanded, our offices are still in the same building they've always been. Even the 1964 earthquake couldn't move us! We have a well-equipped facility that includes an in house laboratory, digital radiology, endoscopy, and ultrasound. We can also consult with specialists quickly and easily via telemedicine.

We are a caring and skilled group that includes 6 veterinarians and a host of support staff. All of us are pet owners. Our philosophy that knowledgeable owners make the best decisions for their pets has proven true. As we listen, diagnose, and treat, we keep our clients informed, frequently providing educational materials so that owners can be our partners in providing pet healthcare.

In addition to complete veterinary care, we also offer boarding for dogs and cats. Please view our website [www.alaskaveterinaryclinic.com](http://www.alaskaveterinaryclinic.com) and let us know if we can answer questions or help you in any way.

We've already helped numerous Northern Lights clients and welcome all. We look forward to meeting you and your pets!

Sincerely,

Lea McWilliams, D.V.M.
