

## **Alaska Veterinary Clinic**

300 East Fireweed Lane

Anchorage, AK 99503

Ph. (907) 277-3224

### **Boarding Facility**

We have a new, clean and sanitary, technician attended facility. Our dog run area features a continuous flow of fresh outside air, heated to 70 degrees both in the dog exercise and dog run areas. A large inside exercise area is used to allow dogs plenty of room for playtime and bodily business.

### **Requirements**

All pets must have been examined by a veterinarian here within the past year and be current on all vaccines. We will examine all pets that do not meet the "seen within one year" requirement and give any needed vaccines. A regular exam charge will then be added to the boarding fee.

All dogs must be on a flea/tick/lice preventative prior to boarding. We will apply Frontline to any dogs not currently on a preventative. The charge will then be added to the boarding fee.

Please make reservations early as peak holiday times fill up quickly. A 50% deposit is required to confirm reservations. Deposit will be non-refundable within 10 days of boarding.

We cannot board pups less than 4 months of age, or kittens less than 3 months, or dogs in heat. We will also not board un-neutered male cats over 1 year of age. An added charge will be assessed for dogs that are barkers, messers, or aggressive.

We will gladly board diabetic pets and pets needing daily prescription medications. The daily charge for these services will be added to the boarding fee. If animals do not have their own medications, we will add that cost to the boarding fees.

To check on availability of boarding, specific vaccine requirements, or current boarding rates, please call the clinic.
